

MUSIC VERSION 2 WORKSHOP

29 - 30 September 2004, Melbourne

5 - 6 October 2004, Brisbane

More MUSIC courses are planned - see page 2

Workshop Description

The two day MUSIC (Model for Urban Stormwater Improvement Conceptualisation) training workshop is aimed at professionals in local government, consultancies and waterway and catchment management agencies. The course will enable participants to apply the MUSIC software, and also understand the theory and assumptions behind the model. Users will learn how to simulate and evaluate the performance of stormwater treatment measures, either singularly or in a treatment train. The workshop will discuss the importance of calibration, and the use of local monitoring data to support modelling.
